

# San Francisco — POWER

## Plan Bay Area Community-Based Outreach

### Outreach area:

Bayview Hunters Point/Mission in San Francisco, California

### Outreach description:

Outreach in April and May 2011 through surveying at transit hubs, community clinics, Sunday Streets, and one POWER community meeting on May 7, 2011

### Participants: 55

(Note: Not everyone voted in all segments of the outreach.)

### Priority Transportation Investment Strategies

Participants were given 21 options for investing future transportation funding and asked to select their top six priorities.

Rank	Strategy
1	More frequent service on transit routes with high ridership
2	More frequent service on transit routes with high ridership
4	Add more bike paths/bike lanes
3	Invest more transportation funds to support cities that build new housing near transit that is affordable for Bay Area residents with limited income
5	More transit service to connect housing and jobs
6	Expand commuter rail services (BART, Caltrain, etc.)

### Priority Policy Initiatives

Participants were given six options for new policies that could be adopted (at the local, regional, state or federal level) and asked to select their top three.

Rank	Initiative
1	Economic strategies (e.g., development strategies to protect existing jobs, create new jobs, or preserve warehouse/industrial sites)
2	Wild Cards (for ideas not already proposed): Reduce public transit fares
3	Wild Cards (for ideas not already proposed): Tax corporate polluters to fund transit
4	Other pricing strategies (e.g., charge tolls on new express lanes, or charge a new fee based on annual miles driven)

### How will we grow?

Participants were asked to choose a preferred scenario for future growth, with "Planned Future" (labeled "current Plans") reflecting adopted MTC and ABAG plans, and "More Urban" and "Most Urban" applying increasingly higher concentrations of housing and development.

### Comments

Participants who took the survey were asked what one thing in their neighborhood (and in the Bay Area) they would like to see changed, and what one thing they would most like to keep. Some participants also submitted general comments on a separate comment card. Below are the most common responses and comments in no particular order.

- Favor development in urban areas that will bring more transportation dollars for urban infrastructure
- Need affordable housing
- Need to create jobs
- Expressed concern over possible displacement of low-income residents
- Expressed concern over violence and a desire to have peaceful neighborhoods
- Favor investing in transit (new, existing and most effective)
- Favor funding for commuter lines, bike lanes, and as incentives for cities to build affordable housing
- Would like to maintain cultural traditions of their neighborhood
- Value parks, open space, art and youth services
